Grade-AF-MB-01(PP)

Kalpena's filler master batches are produced from ultra-fine dispersible calcium and virgin Polypropylene resins. Additives like antioxidant, lubricant, processing aid and desiccant are added to improve long term thermal & mechanical properties and process ability. The compounds are diluted with desired grades of polypropylene show good dispersability and excellent balance of properties in the ultimate product.

Kalpena's Filler Master batches offers the following benefits.

- Improve stiffness.
- Antislip property, improve strength and improve product stability.
- Smooth and glossy surface finish.
- Cost reduction
